

Ongoing_maintenance

There is always the flip side of the coin. It is true that the system automates a lot of business processes and saves time, year after year but the system itself does not run automatically. With time business logic changes and that needs to be incorporated. There are some routine jobs to keep the system up and up to date. Someone must there to maintain the system.

We will take all the pain on your behalf. We can take care of the hosting and backup parts too. All you have to a monthly contract with us and include the tech works that you want leave to our reliable hands. We will simply estimate the monthly works and suggest you to hire accordingly. You do not need to pay for a full dedicated person when you need a part time hiring for 15 hours a month.
