

Recruitment Agency Automation

If you are running a recruitment agency business, you can setup RP recruiter and save your money and time.

RP recruiter is a web based software application that automates the business of typical recruitment agency. It helps you to manage the candidates, employees and their jobs in a cost effective way.

It does what several employees could do manually. So it saves the monthly salary of several people. Only thing you need to do it one time setup and run it.

Cost and Timeline

You can get started in 10 days and by just spending \$1500 only. And it will be a dedicated solution for your own business. You will have your own database, your own system and your own domain.

The cost is negligible compared to the saving it will do for you. If you try to get it done by an employee, his / her 15 days salary may be higher than this.

If you try for any renowned ERP/CRM solutions it will cost you the moon. Plus you will not have the easy and cost effective option to make customize as per your exact requirement. You will have life time use and edit option at your domain.

Who will do the Ongoing Maintenance?

There is always the flip side of the coin. It is true that the system automates a lot of business processes and saves time, year after year but the system itself does not run automatically. With time business logic changes and that needs to be incorporated. There are some routine jobs to keep the system up and up to date. Someone must there to maintain the system.

We will take all the pain on your behalf. We can take care of the hosting and backup parts too. All you

have to a monthly contract with us and include the tech works that you want leave to our reliable hands. We will simply estimate the monthly works and suggest you to hire accordingly. You do not need to pay for a full dedicated person when you need a part time hiring for 15 hours a month.

Why Hire us

1. Custom Solution as per your exact business requirement.
2. Long term maintenance and hassle free support guarantee
3. Option to include hosting and data backup services.
4. Option to hire dedicated, part dedicated resources as per your requirement.
5. Lowest possible cost. We can deliver quality service at India Price.
